

SAFEsnap

Make Your Safety & Security a Snap

As a SAFESnap Client

- Many corporations offer staff and clients panic and/or security and emergency solutions as value-adds, e.g.:
 - OUTsurance – Help@OUT
 - FNB – GuardME
 - Momentum – Safety Alert
- The solution offered is 'white label,' changing for each corporate customer
- We all use the same Service Provider Network (Aura)

As SAFEsnap Client

- Where SAFEsnap differs is in creating our own App
- We can offer features and functions our competitors can't
- Use of SAFEsnap App, for you and its clients, therefore has many benefits over existing, white-label solutions

As a SAFESnap Client

Benefits:

- Peace of mind for your clients
- An easy-to-use system in multiple locations
- An opportunity to get involved in the technological advancements that drive our solution to real-world problems
- Working with us towards resolution of global concerns that show no signs of going away

As a SAFESnap Partner

- SAFESnap can be downloaded at no cost
- SAFESnap Free is a no-subscription service
- Gives everyone access to public response services at the snap of a button on the app:
 - No need to remember numbers
- All SAFESnap Free members receive Public Service Announcements:
 - For lost or abducted persons; initiated by Full SAFESnap Solution subscribers
- Able to assist in reuniting lost/abducted persons with family

As a SAFESnap Partner

Benefits:

- Marketing exposure as appropriate
- A proactive approach to your clients' security
- Technology sourced from among the top biometric safety & security solutions available
- An opportunity to help build the SAFESnap community:
 - No longer individuals concerned for their safety
 - A dedicated community, ready to help
- A community of which we'd like you to be a part of

As an Investor

- The SAFEsnap App stands apart from its ilk in the South African security landscape
- It's a single solution offering multiple features and functions
- Subscribers get instant notifications of biometric scans
- Immediate response and access to both emergency & security services, or an emergency contact
- They have total control and management over data access
- Subscriptions are exceptionally well-priced and affordable

As an Investor

- We want to make SAFEsnap available to every South African, whether corporate or private, adult or child
- To empower children and others at risk to feel safe & secure, and to know they can help in times of need
- To give parents peace of mind, whenever and wherever they leave their children
- On a larger scale, we aim to play a part in reducing child abductions and human trafficking, making it nearly impossible for these scourges on society to progress

As an Investor

- We want to make the world a better, safer, and more secure place for all
- We want to leave a legacy
- And invite you to join us

Secure the Future With SAFESnap
